Education

Pandit Deendayal Energy University
B.Tech. in Computer Science & Engineering

July 2023 – September 2027
CGPA: 9.58 | MYSY Scholar

Experience

OpsHub, Inc.

May 2026 – July 2026

Software Engineer Intern

Ahmedabad, Gujarat

- Resolved production Azure DevOps synchronization failures in the Java-based OpsHub Integration Manager across test links, special-character paths, and reference mappings.
- Automated SSL certificate lifecycle management without restarts and accelerated debugging with AI-assisted analysis and Jenkins test reports in pull requests.

Shital Infotech

March 2026 – Present

Full-Stack Engineer

Ahmedabad

- Engineered a production payroll and HR platform supporting **400+ employees**, integrating Biomax biometric attendance devices, salary processing, leave management, and auditable payroll workflows, reducing manual payroll processing by **80%+**.
- Streamlined statutory payroll calculations including PF, ESIC, Professional Tax (PT), TDS, and Gujarat Form 5 generation, enabling government-submission-ready reports while improving payroll accuracy and compliance.

Newtech Infosoft Private Limited

November 2025 – December 2025

iOS Mobile Developer

Ahmedabad

- Delivered a real-time enterprise communication platform for **500+ users** with presence, media sharing, read receipts, and push notifications.
- Centralized communication through role-based administration, moderated chat requests, and secure multi-device sessions.

BasicTech

June 2025 – October 2025

Software Engineer Intern (Web & Mobile)

Remote

- Developed Go-ToIMS, a multi-tenant inventory management platform that streamlined inventory tracking, BOM workflows, and order management, reducing manual operations by **65%** and improving fulfillment speed by **30%**.
- Established CI/CD delivery workflows, increasing deployment reliability by **90%** and supporting faster production releases.

Open Source Contributions

Webpack — Runtime correctness, diagnostics, and optimization

December 2025 – Present

- Authored **6+ merged PRs** fixing runtime errors, export analysis, stats output, and regex generation, improving Webpack correctness and reliability.

CNCF Backstage — Core UI rendering and component state fixes

January 2026 – Present

- Landed **4+ PRs** fixing table layouts, catalog tag rendering, and nested accordion state, improving Backstage UI consistency and component correctness.

C2SI Org — UI, API, and test reliability improvements

February 2026 – Present

- Shipped **7+ accepted PRs** improving Webui UI, API versioning, error handling, data fetching, and backend test reliability.

Projects

UNIUN — Decentralized Second Brain — Flutter, Go, Nostr, Isar, On-device AI

March 2026

- Architected a decentralized, offline-first knowledge and social platform with encrypted communication, user-owned identity, and on-device AI; integrated GraphRAG-powered retrieval for interactive assistants and autonomous background agents.

UNIUN Inference Platform — Go, PostgreSQL, Razorpay, OpenAI-compatible APIs

June 2026

- Designed a Go-based LLM inference gateway routing OpenAI-compatible requests across Anthropic, OpenAI, and self-hosted models; implemented subscription and credit billing with token metering, Razorpay, audited usage, and an upstream streaming-charge fix.

Technical Skills

- Languages:** Java, Go, TypeScript, JavaScript, Python, C/C++, SQL
- Backend:** Spring, Node.js, Express.js, REST APIs, GraphQL
- Frontend & Mobile:** React, Next.js, React Native, Flutter, Expo
- Databases:** PostgreSQL, MySQL, MongoDB, Redis, Isar
- Cloud & DevOps:** Docker, Jenkins, GitHub Actions, Azure, AWS, Vercel, Nginx, CI/CD
- Testing:** TestNG, Jest, Cypress, Testcontainers
- AI:** LLM Infrastructure, LLM Gateways, GraphRAG, OpenAI APIs, Agentic Systems, On-device AI
- Tools & Concepts:** Git, Maven, Nostr, Enterprise Integration, Real-time Systems, System Design

Achievements

- Breach Fintech Hackathon — Rs.10,000+ prize; Finalist at Odoo Hackathon (Top 10 / 150+ teams).

Leadership

Google Developer Group (GDG) PDEU

August 2025 – Present

Tech Supervisor

Ahmedabad

- Led Dev:Init for 100+ teams, co-organized AntiGravity for 300+ attendees, and delivered a month-long Google Cloud Arcade workshop.
